

Eco-Gel™

Rapid Response Systems

The Eco-Gel™ Rapid Response Systems represent all-in-one firefighting solutions that are deployable across a variety of terrains and industrial installations. Each system includes FireRein's TPP (Through Pump Proportioner) – a robust, mechanical proportioning system optimized for Eco-Gel™.

The Rapid Response Platform System includes:

- a skid unit frame with 1000 Litre Water tank
- a Waterax 9hp Versax pump
- 2 lengths of 38mm firefighting hose and TFT Metrol 38mm nozzle
- a drum mixer with a programmable timer
- FireRein TPP™ drafting system

The Rapid Response Core System includes:

- a 500-gallon Handy Hydrant System
- a Waterax 9hp Versax Cart
- 200 feet of 1.5-inch forestry hose
- a FireRein TPP™ system
- an Eco-Gel™ Cart
- Hose Pack
